EXPERIENCE

Bishops Diocesan College | *Hockey Coach* | **Apr 2022 – Sept 2022**

- I have experience as a Co-Managed Coach for a hockey team during the winter season. My responsibilities included ensuring the safety of students, managing the logistics of games, identifying strengths and weaknesses, advising on health and lifestyle matters, developing training programs, and handling administrative tasks. I am skilled in team and people management, as well as teaching relevant skills, tactics, and techniques to the team.

Bishops Diocesan College | *Assistant Hockey Coach* | **Apr 2021 – Sept 2021**

- I have experience working as an Assistant to the Head Coach for a hockey team during the winter season. My responsibilities included ensuring the safety of students, identifying their strengths and weaknesses, and developing training programs. I am skilled in team and people management, as well as providing professional assistance to the coach. My role also involved teaching relevant skills, tactics, and techniques to the team.

34 Degrees Agency | *Work Experience - Marketing Assistant* | **Aug 2019 – One Day**

- During my working experience as a marketing assistant, I collaborated with the marketing team to launch a successful digital marketing campaign that significantly increased website traffic. I also provided valuable feedback to both the product and marketing teams, which led to improvements in customer experience. Additionally, I worked closely with the marketing and product teams to ensure that customers received the best possible experience.

Nedbank | *Work Experience - Business Architect* | **Aug 2019 – One Day**

- The individual was exposed to a range of positions, including programme managers, scrum masters, business analysts, process engineers, and business architects. They gained knowledge about project structures, sprint planning, scope, velocity, and the responsibilities of stakeholders. Additionally, they received education on the role of a business architect, which involves designing the business ecosystem to align strategic objectives and tactical demands. (*As Declan Cowen stated, "James was also educated on the role and responsibilities of a business architect; the design of the business in terms of the ecosystem that it supports, in order to provide a common understanding of the organization to align strategic objectives and tactical demands.")*

EDUCATION

Cape Town Creative Academy 2021 – present | BA Interaction Design & Frontend Development

- **Coursework:** Interaction Design, Frontend Development, Business Studies, Contextual Studies, Design Thinking, Photography, Market Research

PROJECTS

Chore-Wise | *HTML, CSS, Javascript, React, Firebase, Netlify PWA* | **May 2023 - Present**

- An interesting approach on how to help parents incentives children to do chores with a reward-based system, in development however it will make use of protected routes as well as using Firebase as the backend for hosting information and data on users.

James-Frown | *HTML, CSS, Javascript, React, Router, Netlify PWA* | **April 2023 - Present**

- A Portfolio website built using Vite framework and React, it is a fully responsive portfolio page with React routes and is hosted on Netlify.

Fake Saas Website | *HTML, CSS, Javascript, React, Netlify PWA* | **Sept 2022**

- An e-commerce website simulating a simple Saas Software service.

Free For Days | *HTML, CSS, Javascript, React, Netlify PWA* | **Mar 2022**

- A simple Soap2day Clone that has static content on movies and series.
